REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found for the independent claims deal with a balloon catheter with a spiral helix that is partially free-floating and partially located within the inflation lumen and the spiral helix has a specific configuration that provides the catheter with a flexibility transition. The specific configuration of the spiral helix for claims 1 & 36 are the windings are closer together at the proximal end and farther apart at the distal end and for claim 39 the configuration deals with the outer shaft that reduces from a first diameter to a second diameter adjacent the distal end of the helix.

The independent claims also include other patentable subject matter in combination with the other elements or steps of the claim not mention in the above paragraph.

The examiner gave full faith and credit to the previous examiner's search and also updated the previous search.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
